

Limited Lifetime Warranty

SUMMIT INTERNATIONAL FLOORING warrants to the original purchaser that SIF Adhesive will maintain its bond for the lifetime of the floor. This warranty applies to the installation of those types of flooring listed in the Technical Data Sheet for the respective adhesive when used on approved sub floors and when installation instructions are strictly followed.

SUMMIT INTERNATIONAL FLOORING products must be used in strict accordance with both the flooring manufacturers' and Summit International Flooring's written pre-installation and installation instructions, including but not limited to sub floor, moisture and alkali limitations. This warranty applies to the original purchaser of the flooring only and is non-transferable. Summit International Flooring is not responsible for damages to the flooring before, during or after installation. In the event of dissatisfaction or damages resulting from the installation itself, from installation errors, or from improper maintenance, Summit International Flooring neither expresses nor implies any warranty.

Note: Failure to follow all product installation instructions will void the warranty. Review all Technical Data Sheets associated with products to be used before installation. Current Technical Data Sheets are available at www.summit-flooring.com.

Inspection:

Summit International Flooring reserves the right to inspect any claim. Any and all claims repaired and/or replaced prior to inspection without prior written or verbal authorization from an officer of Summit International Flooring, will void this warranty.

Repair and/or Replacement:

In the event of a product failure attributable solely to a Summit International Flooring product, Summit International Flooring will repair or replace, at its sole and absolute discretion, that section of the floor that has failed, including labor costs, material, and accessories (e.g. trim).

This warranty is limited to one repair or replacement and in all cases is the sole remedy and obligation offered. No other warranties, whether written, expressed, or implied, shall be considered. Incidental and/or consequential damages are excluded under this warranty. This warranty supersedes any previous warranties.

If the floor fails after one repair or replacement, Summit International Flooring will assume such failure is caused by job site conditions and Summit International Flooring will no longer be responsible for the product failure or job site condition(s).

Alkalinity:

Alkalinity can cause damage to certain types of flooring and in some cases may cause adhesion failure in some manufacturer's adhesives. Check Alkalinity limitations found on the technical data sheet before using Summit International Flooring's adhesives, sealers, primers, leveling compounds, or other products.

Exotic Species:

Bamboo, Wenge, Cherry, Teak, and other exotic species react differently to moisture and humidity. Consult your local Summit International representative for details prior to installation of any exotic species.

Summit International Flooring

Note: Bamboo is a grass, not wood. Summit International Flooring warrants that our adhesives specified for Bamboo flooring will permanently bond it to the sub floor when properly installed. However, Bamboo Flooring which cups, bows, end-lifts, shrinks, expands, or otherwise reacts adversely to moisture following installation with any Summit International Flooring's product is not covered under Summit International Flooring's Warranty. Such reaction is a clear indication of an unstable flooring product or moisture condition and is not caused by the application of Summit International Flooring products.

Moisture Related Warranties:

Many SUMMIT INTERNATIONAL FLOORING products carry a moisture related warranty and have specific limitations. If conditions are found to be in excess of the product's limitations, SUMMIT INTERNATIONAL FLOORING will not be responsible for product failure or floor performance in such cases. Please refer to each product's Technical Data Sheet for parameters. All pre-installation tests from the flooring manufacturer, the National Wood Flooring Association (NWFA), and SUMMIT INTERNATIONAL FLOORING, and any other applicable installation guidelines must be strictly followed.

Note: Failure to utilize moisture tests and the recording of those proper tests **prior** to installation or use of any SUMMIT INTERNATIONAL FLOORING product will void the warranty.

Exclusions:

The warranty does not cover damage to SUMMIT INTERNATIONAL FLOORING products or the installed flooring caused by, but not limited to the following, except in those instances where a SUMMIT INTERNATIONAL FLOORING product is expressly prescribed for such use (e.g. use of a SUMMIT INTERNATIONAL FLOORING Sealer to prevent moisture penetration from the sub floor up to the product's prescribed limits):

- Hydrostatic pressure
- Excessive vapor emissions
- Uneven and/or unapproved sub floor materials
- Improper substrate preparation
- Improper installation or complaints related to the flooring material
- Faulty accessories and/or SUMMIT INTERNATIONAL FLOORING products used in conjunction with those of other manufacturers
- Excessive exterior water (damaged water pipes, sinks, icemakers, faulty plumbing, flooding, etc.)
